

DECISION LENS

A PARTNERSHIP IN STRATEGY EXECUTION & STRATEGIC RESOURCE PLANNING

How do you know your IT resources are focused on the right activities for your business strategy?

Strategic questions like this are still confounding even the most mature IT organizations and leaders. It's not good enough anymore to rely solely on your PMO, spreadsheets, and project management system for answers. It's time to work with **experts** in strategy execution and **solutions** built specifically for strategic insights and answers.

Strategy Execution

- ✓ Figure out your organization's maturity and where to get started with a strategy alignment assessment.
- ✓ Identify re-allocation opportunities to focus business transformation activities.
- ✓ Quantify strategy and stakeholder opinions to identify true priorities.

DECISION LENS
Software built on the theories of decision science, trade-off analysis, and scenario planning to focus on the hard choices in funding and allocation.

Maryville
Guiding organizations through technology-enabled growth and transformation for more than 20 years.

Strategic Resource Planning

- ✓ Implement customized strategic resource allocation tuned to your goals and constraints.
- ✓ Obtain the answers and insight you require to fund and staff what you committed to get done.
- ✓ Identify the exact financial and people resources you need to be successful in the future.

The right accelerators, expertise, algorithms, best practices, and tools you need for better strategic planning
